# Example Performance Statistics

Below you will find the performance statistics of the symbolic fuzzer that was implemented by one of our TAs last year. Performance statistics shown here **are not the answer** to the lab assignment and should be used as a reference. Results are highly dependent on your implementation, thus your results may vary from the statistics shown below.

| Problem Number | Number of unique branches visited | Number of unique error codes triggered | Triggered error codes |
|---|---|---|---|
| 11 | 306 | 18 | 0,9,13,24,26,39,42,48,52,60,62, 74,75,82,91,93,94,95 |
| 12 | 381 | 11 | 3,8,10,25,28,37,65,73,74,77,79 |
| 13 | 397 | 20 | 1,3,10,16,23,30,31,34,35,37,49, 52,68,70,71,72,74,75,82,90 |
| 14 | 1174 | 15 | 4,15,18,25,27,28,36,41,59,60, 73,76,77,90,97 |
| 15 | 1607 | 15 | 8,16,20,21,24,28,31,33,46,54, 72,82,88,90,95 |
| 17 | 4884 | 30 | 0,2,11,12,19,22,23,25,31,35,37,46, 50,51,53,56,61,63,66,69,72,76,78, 79,85,86,95,96,97,99 |
